Personalized Frontispiece for FAO Album I

From the beginning the FAO Coin Office planned to number individually each of the 10,000 issues of FAO Money Album I. We thought first of numbering the individual pages, but found this impracticable because of the complications of ensuring that each of 10,000 persons received the same page all the way through. We have therefore prepared a numbered and named frontispiece, as overleaf. The frontispiece exists in five languages: Danish, English, French, German and Italian, and the numbers of course run from 1 to 10,000, with the last 250 used for presentations to heads of state and other national and international leaders.

2. The number of countries reads as 33, because all eight Caribbean coins were issued by the single East Caribbean Currency Authority. The frontispiece therefore is applicable also to a five-page album, in deference to the several clients who, having bought page 5 with the Barbados coin, considered page 6 with the other seven ECCA crowns as somewhat expensive.

3. Please therefore write in below your name as you would like it to appear (in place of that of Mr. Lubey overleaf) and send the form direct to the FAO Coin Office, FAO, 00153 Rome or, if preferred by North American clients, through our Washington office. On receipt we shall send the personalized and numbered frontispiece to you

*John F. Lubey
ANA Life Member 942 OIN 893*

internationally sponsored issue in 2,500 years
of monetary history.*

*The coins draw attention to the most important
challenge of our time, that of providing food,
education and employment for a rapidly expanding
world population. We hope that this album,

6001

*will give you as much satisfaction in the
contemplation of the coins, as their purchase
has already done in contributing financially
to our Food for All goal.*
